### HIGH PRESSURE LAMINATE

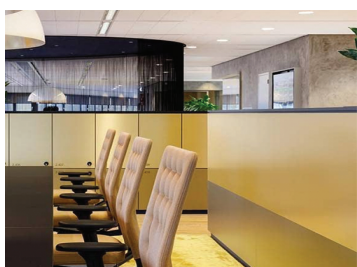

By ABET Laminati.

At Surface Squared we source our High Pressure Laminates (HPL) from the leading European manufacturer ABET Laminati. A combination of solid colours, textures and patterns, timber grains and metals create a design led palette to enhance any interior project. HPL is available pressed onto MR MDF or White Birch Ply with matching ABS edge tape.

### LAMISHIELD By ABET Laminati.

Lamishield by ABET Laminati is an antibacterial high Pressure Laminate (HPL) that reduces the risks of infections and illness related cross contamination. Thanks to the BioCote® silver-ion technology fully incorporated into the decorative layer, Lamishield reduces the level of bacteria on its surface by up to 99.9%.

### METAL High Pressure Laminate By ABET Laminati.

Metal High Pressure Laminate will create the statement look you have been searching for. The range includes tones of gold, copper and brass through to stainless steel and chrome in mirror and brushed finishes.

### MAGNETICO AND

Writable Surfaces  
By ABET Laminati.

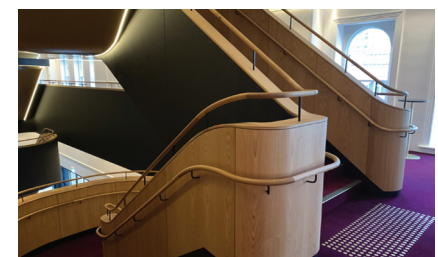

Magnetico White 406 Lucida is the go-to writable and magnetic product for projects that require versatility. Magnetico can adapt between an easy-to-clean white board, to a magnetic surface, to a projection screen, making it ideal for multi-functional spaces.

### DIGITAL PRINT

By ABET Laminati.

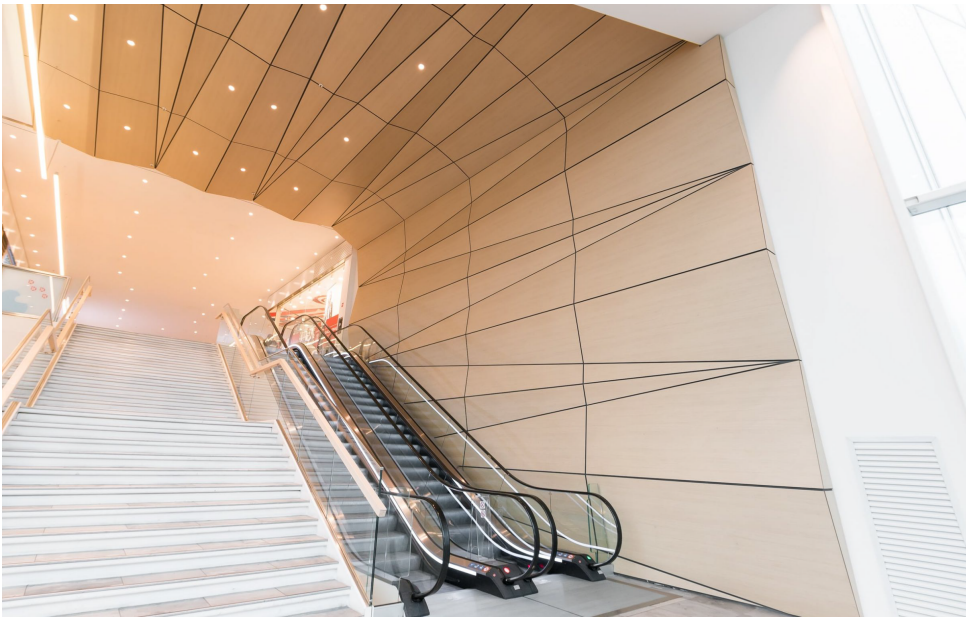

At Surface Squared we offer an easy way to customise your decorative surfaces with ABET Digital print. The flawless quality of ABET's High Pressure Laminate (HPL) and Stratificato allows you to discover the unlimited decorative potential for your projects using Abet Digital.

### POLARIS High Pressure Laminate By ABET Laminati.

High Pressure Laminate with an extra-matte, smooth and velvety texture. Highly resistant to scratches and heat, as well as being anti-fingerprint using cutting edge technology.

Easily machined

## ■ **STRATIFICATO** By ABET Laminati.

Stratificato is a material that offers both functional and aesthetic qualities. Its resistance to impact, wear and moisture create excellent hygienic properties making it the ideal material for partitioning, lockers, wall panelling, furniture and joinery. Stratificato has the most extensive colour range on the market. The entire ABET Laminati collection can be supplied in various sheet sizes and thicknesses ranging from 2.5mm-13mm, creating versatility in machining and yield.

## ■ **ABET DOORS PRINT** By ABET Laminati.

High Pressure Laminate (HPL) is the perfect material for internal doors. HPL has excellent hygienic, impact and wear resistance making it incredibly durable and easy to clean. The HPL surface means there is no painting or sealing required, prolonging the life-cycle of the doors and reducing costs on maintenance. The Doors Print range from ABET Laminati is available in 3 sizes 2250x1000, 2440x1220 and 3050x1300 in a 0.9mm thickness accommodating any internal door size.
